

Mid-Day Meals Scheme Mobile Solution

Mid-Day Meal Scheme was launched by the Government of India which helps poor kids from rural and urban areas and resolves issues of lack of nutrition, food security and access to education.

Mid-Day Meal mobile app is meant for effective monitoring of daily and monthly mid-day meal scheme running at schools.

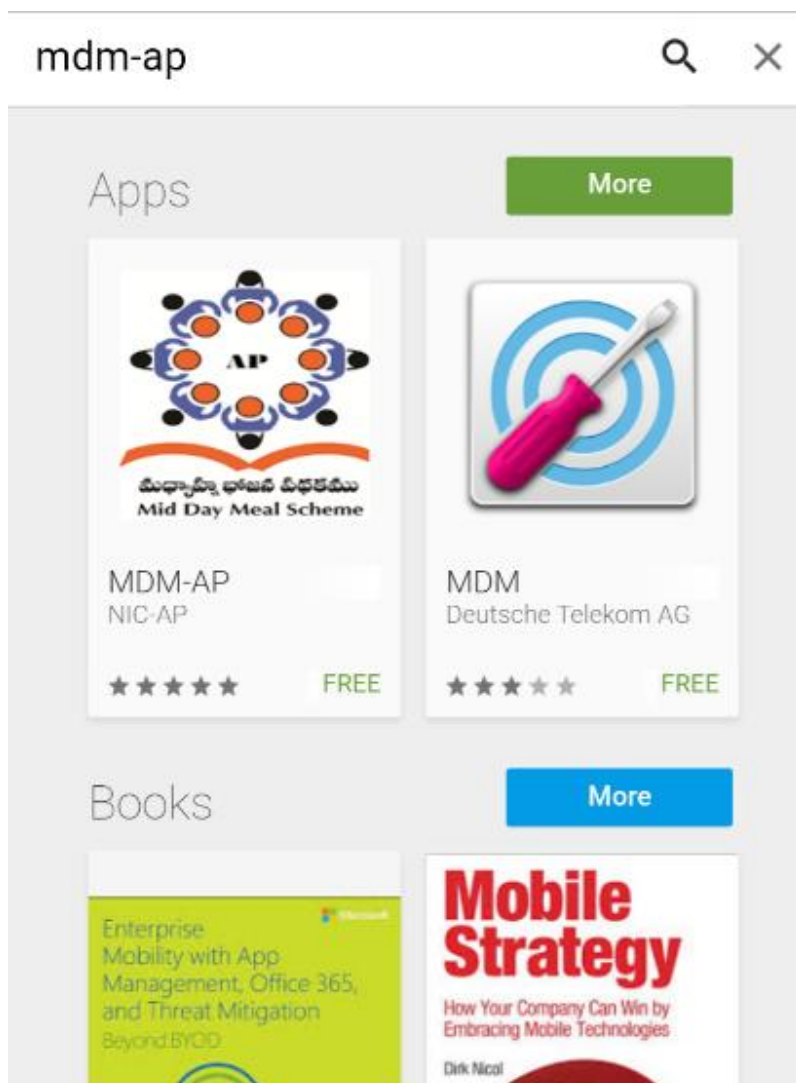

The app provides additional data communicating mechanism for the MDM in-charge/teacher who has to send the daily data including daily attendance against the Mid-day meal consumption by the students using app. The app, once installed on android device, need Internet to send MDM figures as user has option to send the figure through the app. This simplifies the job of MDM in-charge, who just has to enter his login credentials in app to post the data. The higher authorities at Block, District and State level have a very simple and effective mechanism in shape of this app on their mobile devices for monitoring of daily as well as monthly MDM scheme activities under their jurisdiction. The authorities can analyze the attendance data for calculating food requirement for schools.

Mobile Requirements:

Platform:	Android version 4.1 and above.
Size:	1.8 MB
Language:	English only
Current Version:	1.0
User Authentication:	Username is School Id and password is 123 for all schools (until all schools are mapped)
Internet:	Compulsory
Intended User base:	Headmaster (will be extended in near future)

Q. How to download MDM App?

- A. Open Play store in your smart phone.
Type MDM-AP. You'll see the following apps.

Click on MDM-AP. You'll see the following image.

Press install and you are done.

Search

Please wait, while download completes. Once you open the app, you will see the following image which prompts you to enter your school ID (11 digit only) and password (Right now, it is 123 for all schools).

Once you enter your valid school ID, it shows the following form where you are supposed to enter today's attendance in strength column and meals taken by students in availed column for respective class divisions.

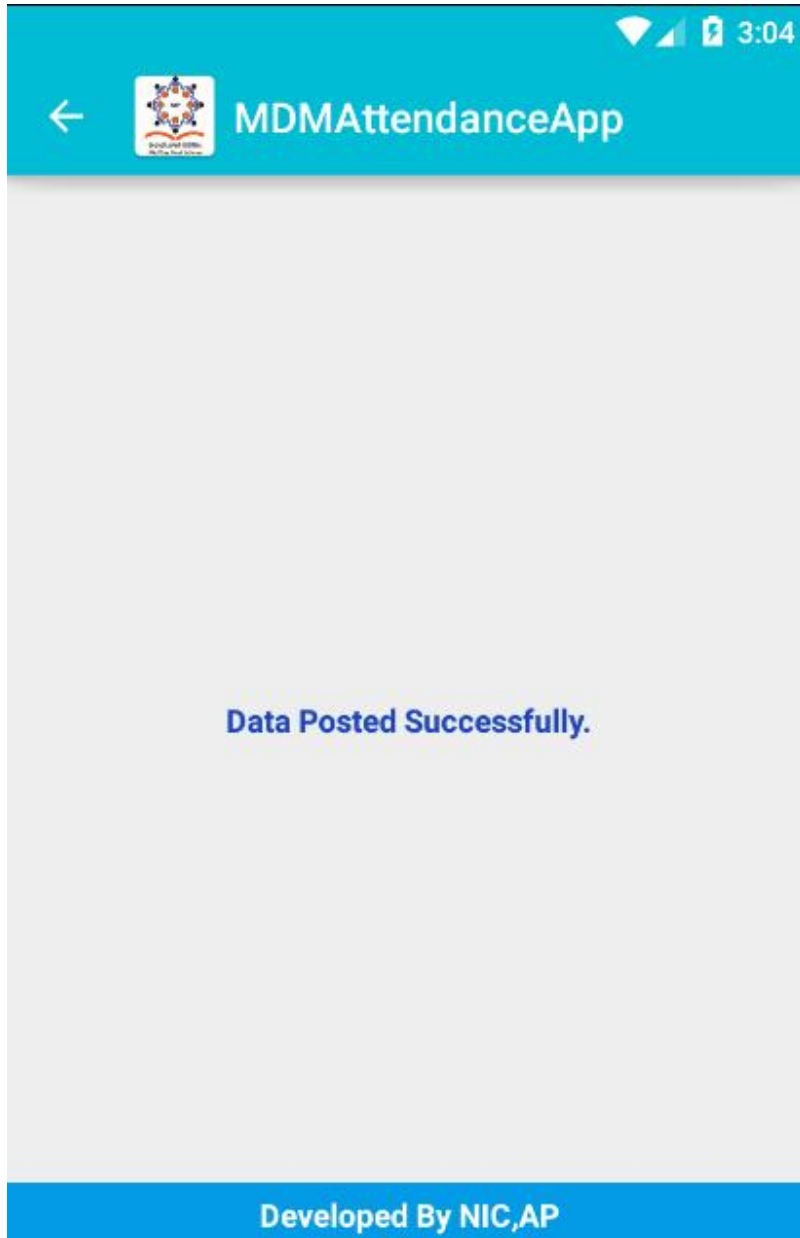

The screenshot shows the MDMAAttendanceApp interface. At the top, there is a teal header with a back arrow, the school logo, and the text "MDMAAttendanceApp". Below the header, the school name "ZPHS (G) SURYA NAGAR" is displayed in blue. The main content area contains a table with three columns: "Class", "Strength", and "Availed". The rows represent class divisions: "I-V", "VI-VIII", and "IX-X". Each row has a vertical line on the left and horizontal lines for the Strength and Availed columns. At the bottom of the form is a blue "SUBMIT" button. A footer bar at the very bottom says "Developed By NIC,AP".

Class	Strength	Availed
I-V		
VI-VIII		
IX-X		

SUBMIT

Developed By NIC,AP

Once you enter submit button, data is submitted in the data server.

In case you encounter other messages, it means that transaction is not successful due to network disruption. You can try again.

Automated Reporting Tool:

Following URL can be accessed where higher authorities can monitor daily attendance and food consumption of all schools across the state.
